### ► Customer reviews

*"I would have never thought that our heavily chlorinated tap water could be turned into something delicious"*

R. Michalke from the Harz

*"The water really tastes much better... It makes you want to drink more, and that really says something about me as normally I drink far too little."*

G.M. from Switzerland

*"My wife put the previous soda maker into the cellar. The water doesn't have to be cold anymore. We all like it, even the children and we drink more than before! The handling is really easy."*

M.P. from Neu Wulmstorf

# MAUNAWAI Water

## Your own spring at home

- ✓ Healthy drinking water
- ✓ Saves time, energy and space
- ✓ Soft spring water quality
- ✓ Free of pollutants
- ✓ No electricity required

following:  
3 Cent/l

## Wasser is Life

And your body needs healthy water. This filter system transforms every tap water into unspoilt mountain spring water. On Hawaii the word for “mountain spring” is Maunawai-giving our filter system its name.

The technology was developed 60 years ago in Japan in order to transform tap water into best-quality water. The great mineral springs and life itself were used as a model.

In our waterworks, phreatic water is treated and for the supply of the consumers forced through the pipe system using high pressure. Inevitably, this has a negative effect on the natural structure of the water – even in regions that generally have a very good quality of tap water.

The five principles: filtration, information, optimizing, harmonization and biological provision of water were put together/jointed in one filter system.

Any tap water is transformed into water that meets the highest standards: it's pure, it's alkaline, it tastes soft and balanced. It provides you with perceptible energy, beauty and well-being.

### What is special about this filter system?

*“The filtrated water has excellent values and special characteristics: It is such as the water in our cells. Thereby, energy and substances are transported more quickly, growth and regeneration is optimized.”*

Dr. rer. nat. Stefan Lanka  
Virologist and molecular biologist, owner of the WissenschaftPlus-Verlag

*“Maunawai water's strong resonance signal at 22.5 Hz really is no small matter. It's confirmation of this water's particular quality when compared with the water present in cells.”*

Mag. Dr.  
Walter Hannes Medinger  
Biophysicist, Quantum Physicist and Chief Scientist of IIREC

## The five steps to MAUNAWAI water

The device is 55 cm tall, 30 cm broad and easy to handle. It emanates calmness and safety as this special water is always available and visible.

### COCONUT BASED ACTIVATED CARBON

Removes pollutants such as pesticides, hormones, heavy metals and many others

1

### TOURMALINE CERAMICS

Mineralise the water and create a natural water structure

2

### ZEOLITE & ELEMENTS

Absorbs toxics and binds “free radicals”

3

### QUARTZ SAND & MAGNETS

„Energization“ and basic pH-values

4

### EM CERAMIKS & CALCIUM

Restore the water's natural balance

5

The system does not need to be connected to the water and electricity supply. It is safe and supplies you and your family with the No 1 nutrient.

MAUNAWAI
